

Please do not give LPFM a priority over FM translator service. We listen to K-LOVE and it serves our local community by informing us and strengthening our faith in Jesus Christ. It is a very important ministry tool and has made positive changes in numerous lives. If K-Love were to be displaced by a LPFM broadcaster providing other programming we would be left without this vital pledge supported radio station. I believe that it is in the best public interest to maintain the service provided by K-LOVE in its current FM form. We monetarily support their mission and believe their service to be of the highest standard. Thanks You.
